EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Brenda O. Holmes on June 2, 2005.

The application has been amended as follows:

Claim 1, line 15, --unitarily-- has been inserted before "formed".

The following is an examiner's statement of reasons for allowance: This addition to the claim is to more explicitly indicate that the two half portions are not separate parts from the metal plate which forms the base member as indicated by applicant's arguments received March 2, 2005, on the first page labeled Remarks, ¶2, 3. This amendment was the issue of the interview June 2, 2005 and it was agreed to amend claim 1 by adding the word "unitarily" in order to avoid any possible interpretation of claim 1 as permitting within its scope the half portions as separate pieces from the base plate through a process of severing the half portions from the plate that forms the base member and then reassembling them as separate pieces on the base member. This eliminates any possibility of an application of the teachings of Iseki (US 6324730) that has separate pieces connected together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
